Thur., 14 Feb 2024

Application deadline for the next UNIGIS professional and the UNIGIS MSc intakes

Thur., 15 Feb 2024

UNIGIS Talk: AMAZONGISNET - Initiatives to Empower Amazonian People with the Application of GIS

Fri., 01 March 2024:

Start of the next intake for the English UNIGIS programs (Welcome workshop from 28-29 Feb., online)

UNIGIS PROFESSIONAL

„GEOGRAPHIC INFORMATION SYSTEMS (UNIGIS PROFESSIONAL)“

Registration & Start

UNIGIS professional: Registration & Start - 01 March 2024 intake

Are you considering expanding your GIS expertise? The part-time and practice-oriented distance learning course UNIGIS professional at the University of Salzburg comprises 60 ECTS and can be completed fully online. Registration is open until **14 February 2024**. The course starts on **01 March 2024**. The welcome workshop, where you will get to know your colleagues and the UNIGIS team personally, will take place online from 28-29 February.

> **Get more information on the UNIGIS professional program and intakes.**

UNIGIS MASTER OF SCIENCE

„GEOGRAPHICAL INFORMATION SCIENCE & SYSTEMS – UNIGIS MSC (CE)“

Registration & Start

UNIGIS Master of Science: Registration & Start - 01 March 2024 intake

Would you like to complete a university degree in Geoinformatics but you have a job and/or family and cannot visit a university on-site? Then the UNIGIS MSc distance learning program at the University of Salzburg is perfect for you. The registration deadline for the next intake is **14 February 2024**. The 120-ECTS course is fully online and starts on **01 March**. The welcome workshop, where you will get to know your colleagues and the UNIGIS team, will take place online from 28-29 February.

UNIGIS TALKS

UNIGIS Talks #3: AMAZONGISNET - Initiatives to Empower Amazonian People with the Application of GIS (1996 - 2024)

REGISTER NOW

UNIGIS Talks Ep. 3: 15 Feb. 2024, online (in English), 5pm (CET)

UNIGIS Salzburg is hosting the UNIGIS Talks Series this winter semester as part of the UNIGIS International Association. In February, episode three on the topic "**UNIGIS Talks: AMAZONGISNET - Initiatives to Empower Amazonian People with the Application of GIS (1996 - 2024)**", with Leo Zurita and Richard Resl, from UNIGIS América Latina, airs live. You can also find the UNIGIS Talks on our YouTube channel. Participation is free of charge.

> **Register now for the next UNIGIS Talk.**

UNIGIS TALKS

UNIGIS Talks #2: LeafletJS Session - From Basics to Brilliance in Web Mapping

WATCH NOW

Throwback - UNIGIS Talks Ep. 2: LeafletJS (Jan. 2024)

The second UNIGIS Talk on the topic "**UNIGIS Talks: LeafletJS Session - From Basics to Brilliance in Web Mapping**" took place at the beginning of the month. Suman Baral (Geospatial Analyst and GIS Developer) and Judith Grubinger (UNIGIS Salzburg) delved into the world of LeafletJS and discussed, among other things, how ChatGPT can be used and when such applications are less suitable. If you missed the UNIGIS Talk, you can watch the video on YouTube.

UNIGIS Blog: Link of the Month - Totally Retro into the Future

UNIGIS Blog: Link of the Month - Totally Retro into the Future

Have you already read the latest UNIGIS blog post? This time, Martin Loidl (UNIGIS Salzburg) wrote an article about the **UNIGIS Link of the Month series**, which has been published since 2011 (in German, but with lots of links in English). It has now found its way onto the UNIGIS website as a 'new' section and will be supplemented with a new link and a short description every month from now on. Read the blog post to find out what the link of the month is, why we value it even in algorithm-driven times, and what gems you can find in the archive.

> **Read the blog post and have a look at the link archive.**

If you prefer not to receive this UNIGIS Salzburg International newsletter, please **unsubscribe from the list**.
