GI_Forum 2020: connecting spatially

The GI_Forum is the annual Geoinformatics conference that provides a vibrant platform for dialogue among geospatial minds. During the conference, the ClubUNIGIS community of students, alumni and lecturers will meet in our traditional Get Together meeting. This year, GI_Forum will be held virtually at a reduced price: **All-access ticket for EUR 60** until June 30th, 2020.

GISCA conference 2020: update on GIS in Central Asia

For the first time, this annual highlight for the GIS community in Central Asia was held in a virtual format this year. Experience showed that interaction on digital platforms allowed broader participation without travel restrictions, and many UNIGIS students and alumni could thus take advantage of the event.
