

June, 16 2021 is the day of **optional modules** at UNIGIS Salzburg. During this **online event**, UNIGIS lecturers present a wide range of **optional modules** that are offered for individual specialisation in the UNIGIS programs at the University of Salzburg.

The event is streamed openly. Feel free to share the link! Registration to two modules are open to the public via **Z_GIS online compact**: "**Automated GIS Workflows with QGIS and Python**" and "**Spatial Simulation**". Registration to other optional modules is exclusive to UNIGIS students and alumni.

>> Start LIVESTREAM (June 16th, 2021, 16:20 - 19:30 CEST)

Time	Module (6 ECTS, 3 months, taught online course)	Lecturer	Language of Presentation
