

UPCOMING EVENTS

Wed., 19 June 2024
Graduation ceremony at the University of Salzburg

Tue., 25 June 2024
Info-webinar for the UNIGIS study programmes, online (4pm CEST)

Tue., 10 Sept. 2024
Application deadline for the October intake: UNIGIS professional & MSc

UNIGIS offline May issue

The new UNIGIS offline issue is out now! We are happy to present the spring issue, which has the motto "networks". As usual, you will find exciting insights into Geoinformatics methods, success stories from fellow students, and information about events. On p.8 you can find the UNIGIS International news. We hope you enjoy reading it! (It's mostly in German, but you can use a translation tool.)

> [On our website, you can read all of the online issues of the UNIGIS offline magazine.](#)

Graduation ceremony at the University of Salzburg

The University of Salzburg organizes graduation ceremonies for graduates on a regular basis. We are delighted that two UNIGIS students from Germany came to Salzburg, in March and one UNIGIS student came from Colombia, in April. Graduates are cordially invited to take part. For further information, please take a look at the [PLUS website](#) and contact the UNIGIS office: UNIGIS.office@plus.ac.at

Info-webinar for prospective students, 25 June 2024

You want to become a GIS/Geoinformatics expert but you are working and/or cannot attend university courses on site due to other duties? The UNIGIS distance learning programme is tailored specifically for people who want to study from home. Learn more [about our online study programmes UNIGIS professional \(1-year certificate\) and UNIGIS Master of Science at the University of Salzburg](#), in Austria. Next start: 01 October 2024!

> [Register for the UNIGIS info-webinar on 25 June 2024, 4pm \(CEST\), online.](#)

Esri UC online tickets for UNIGIS students

From 15-19 July 2024, the [Esri User Conference](#) takes place in San Diego, California. This year, active UNIGIS students get the chance to attend the conference online, where you can attend sessions and learn about the latest features and trends. You don't want to miss out on this? Write an e-mail to katharina.woehs@plus.ac.at with the subject line "Esri UC online ticket".

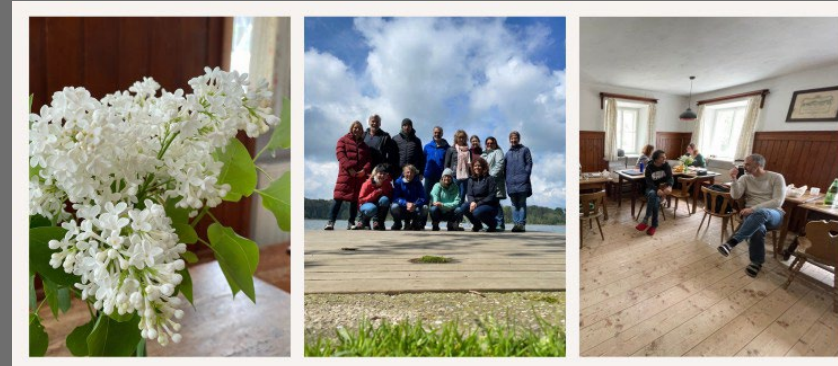

> [Learn more about the event here.](#)

UNIGIS blog: BIM and GIS

Jan Morten Loës wrote a blog article about his master thesis "[Bridging the Gap between BIM and GIS: The OLS-project. How can digital building models be validated for air safety-compliance in the vicinity of airports?](#)". Morten is a UNIGIS MSc graduate and works at VIE Build Company - a spin-off of Vienna International Airport. Read his full article on our website.

UNIGIS didactics retreat

In April, the UNIGIS Salzburg team met for a didactics retreat. Surrounded by the Salzburg lakes and lots of nature, we worked intensively on how we can offer the best possible learning environment and collected many ideas and tools for the implementation. The topics included AI and learning, adult education, visual and content-related preparation of the learning materials, as well as different learning snacks in different media. Stay tuned for one or another feature under the UNIGIS motto "Lifelong Learning".

If you prefer not to receive this UNIGIS Salzburg International newsletter, please [unsubscribe](#) from the list.
