GREEN-EGGER SCHOLARSHIP

NEW! Green-Egger Scholarship for UNIGIS studies

We are happy to announce that UNIGIS provides a partial scholarship for either the UNIGIS Master of Science or the UNIGIS professional study programme, thanks to our donor, Kurt Egger. You want to study Geoinformatics to help create a better world? Apply for the **Green-Egger Scholarship** for your UNIGIS studies. The registration deadline for the scholarship (for the intakes October 2024 or March 2025) ends with 01 September 2024.

UNIGIS

OCTOBER 2024 INTAKE

- UNIGIS professional
- UNIGIS Master of Science

Next intake: October 2024

Starting on 01 October 2024, the UNIGIS Master of Science and UNIGIS professional programs offer you the opportunity to acquire Geoinformatics skills fully online. Our flexible online courses are perfect for working professionals aiming to enhance their expertise and progress in their careers. Earn internationally recognized degrees (European standard) from the University of Salzburg, in Austria, and gain a solid academic and practical foundation in Geoinformatics & GIS. Benefit from a worldwide network of students and alumni, and the self-paced format that allows you to balance your studies with your career and family.

> [Register until 10 September 2024. Find more information on the programmes and the application on our website.](#)

UNIGIS

INFO-WEBINAR

- UNIGIS professional
- UNIGIS Master of Science

Re-watch the UNIGIS info-webinar or register for Nov. 2024

You are interested in the UNIGIS distance learning programmes but still have some questions? **Re-watch the latest info-webinar**, where we introduce you to our Geoinformatics study programmes at the University of Salzburg, how the online study setting works, and where we answer questions from the audience. The next info-webinar takes place in November, just in time before the March 2025 intake.

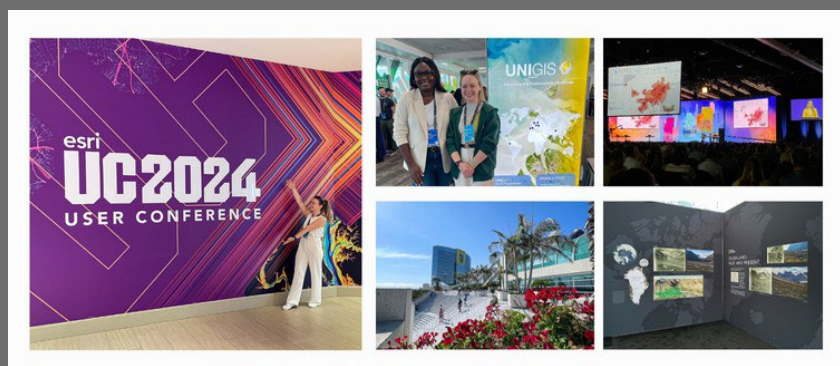

> [Register for the upcoming info-webinar on 27 Nov. 2024, 4pm \(CET\).](#)

Visit Intergeo with your free 3-day expo ticket from UNIGIS

You want to visit this years' Intergeo in Stuttgart, Germany? UNIGIS will be there as well, and we are looking forward to meeting (prospective) students, to learn about latest trends, and to exchange with experts in the field. The best part? We can offer you a free 3-day ticket to the Intergeo expo! Send an email to UNIGIS.office@plus.ac.at stating "UNIGIS at Intergeo" if you are interested. We will provide you with a registration link to get a ticket for free. Tickets are still available! See you there!

Esri UC 2024 throwback

UNIGIS Salzburg participated in the annual Esri User Conference in sunny San Diego. It was a fantastic week, meeting with our students, who live all over the world, and colleagues from UNIGIS América Latina, Portugal, and California, in this vibrant GIS community. Highlights included the Education summit, the Monday Plenary, a presentation on Wildfires in Mexico by an alumnus from UNIGIS América Latina, the Science summit, and the map gallery, where numerous students showcased their hard work. And, of course, we collected and noted down a bunch of new ideas we'd love to try out.

30-Year Anniversary of UNIGIS Salzburg

UNIGIS Salzburg turned 30 this year! To celebrate, we organised a special event with colleagues, PLUS staff, students, alumni, and friends of UNIGIS, in July 2024. One of the highlights included an award ceremony for Sina Bernhard, UNIGIS-MSc alumna, who placed 3rd for the **UNIGIS Academic Excellence Prize** for her Master thesis. She will also participate as speaker in the upcoming UNIGIS Talk. We had a great time during this evening as it perfectly resembled the teamwork-spirit we live every day at UNIGIS Salzburg. To the next 30 years!

UNIGIS América Latina in Salzburg, in summer 2024

During the summer term, we had the great pleasure to welcome three colleagues and a student from UNIGIS América Latina, in Salzburg. Leo Zurita-Arthos stayed with us for three months. He worked with us at the Department, updated his Optional Module "Environmental Monitoring" which starts in October, and enjoyed the time in Austria, exploring the Alpine nature and Austrian traditions. Carlos, Richard, and Anai were perfectly in time to celebrate the 30-year anniversary with us. We are grateful for this wonderful team!
