

## UPCOMING EVENTS

**9.12.2020:**  
Info Webinar for prospective students

**1.2.2021:**  
Call for papers, GI\_Forum 2021

**31.1.2021:**  
Application deadline for the UNIGIS spring intakes

**5.-9.7.2021:**  
GI\_Forum 2021 (virtual conference)

**6.-8.7.2021:**  
International Symposium on Digital Earth - ISDE12, Salzburg

**22.9.-1.10.2021:**  
UNIGIS Summer School "Spatial Simulation Modeling"

## New UNIGIS Program Director

In June 2020 Assoc. Prof. Gudrun Wallentin was appointed as Program Director of the UNIGIS study programs at the University of Salzburg. In this position, she follows the founder of UNIGIS Salzburg and its long-time Director Prof. Josef Strobl.

## A truly Global Campus

International collaboration is not just a buzzword for UNIGIS. 16 participants from 13 countries have joined the October 2020 intake of Salzburg's Global Campus. After the proverbial ice had melted in the introductory workshop, a new cohort of students has set off together for their educational journey with UNIGIS (see UNIGIS *offline* magazine, page 3).

## Curious about UNIGIS?

Are you interested in UNIGIS and wonder how this could work for you? In the Info-Webinar on 9th Dec. the UNIGIS Salzburg faculty will answer your questions: Which program fits better for me? What are the admission requirements? Is it feasible to study next to a full-time job? Register to attend or to view the recording.

## This was ForoMundo UNIGIS

Once a year, the vivid community of students and alumni of UNIGIS programs in Latin America gathers at the ForoMundoUNIGIS to discuss the latest regional developments in the field of GIS. Feel free to relive the series of this year's event.

## GI\_Week July 2021

Next year, Z\_GIS hosts three conferences that are combined into the GI\_Week from 5 - 9 July 2021. The English-language conference GI\_Forum will be virtual, while the German-language AGIT, and the International Symposium on Digital Earth (ISDE) are planned on-site. The Calls for Papers are open until February 1st!

**Call for Papers:**  
> **GI\_Forum 2021**  
> **International Symposium on Digital Earth (ISDE)**

## Spatial Simulation Summer School

Simulation models help to gain a better understanding of complex, living systems. In this summer school (22. Sep. - 1. Oct. 2021), participants will get hands-on experience with the concepts and methods of spatially-explicit agent-based modelling. UNIGIS students and alumni are eligible for a discount.

## The story of a UNIGIS alumnus

What do UNIGIS students do after their graduation? In this newsletter, we would like to share the story of Marien Tijssen. During his UNIGIS study he moved not only into the field of Geoinformatics, but also made a physical move to Sweden. Read his story in the UNIGIS *Offline*
